

CITIZEN DELIBERATION AND THE GREEN DEAL FOR CLIMATE CHANGE

The Future of Environmental Citizenship

OUR GOALS FOR THIS UNIT

We want the students to identify the relationship between Citizen Deliberation and the UN's Sustainable Development Goals. We also want our students to familiarize themselves with the EU's methods of promoting citizen deliberation in the decision-making process regarding the Green Deal

THE EU YOUTH STRATEGY

Is the framework for EU youth policy cooperation for 2019–2027. It fosters youth participation in democratic life, supports social and civic engagement, and ensures that all young people have the necessary resources to participate in society. The EU adopted the following initiatives to help young people have an active role in environmental issues.

EUROPEAN PARLIAMENT CITIZEN'S INITIATIVE

You can actively participate in developing EU policy by launching a European Parliament Citizens initiative. You can start a citizens' initiative to ask the European Commission to propose new EU Legislation if you want the EU to act on a particular issue.

THE EUROPEAN CLIMATE PACT

Offers individuals, groups, and organizations a way to get involved in climate action across Europe; Learn about climate change, create solutions, and put them into action. The Pact aims to become a lively space to share information, debate, and act on the climate crisis, and offer support for the European climate movement to grow and consolidate.

BECOME A CLIMATE PACT AMBASSADOR

Take part in the European climate pact by becoming a Climate Pact Ambassador. Inform, educate, motivate, and encourage your network and community to act on climate change. Link your network to those of other participants in the European Climate Pact.

PEER PARLIAMENTS

Discuss with a group of loved ones, friends, classmates, or colleagues how we can best fight climate change by altering the way we travel, consume food, and use energy.

RUN YOUR OWN PEER PARLIAMENT

The EU allows you to run your parliament as a Peer Parliament host. You can gather your friends and give them the basic information on the topics and then open the floor for discussion. European citizens carried out a total of 461 Peer Parliaments from November 2021 to March 2022 across the 26 EU Member States.
