## Final Transnational Meeting of the Partners

On the 22nd of February 2024, the project partners of GreenVETers gathered for their final transnational meeting at the ProWork headquarters in Burgh-Haamstede, in the Zeeland region of the Netherlands. Our collaborative assembly focused on reviewing the project's outcomes, discussing the impact, and planning the dissemination and exploitation of results to ensure the project's legacy!

CEPROF hosted two multiplier events on March 12th and 22nd in the framework of the GreenVETers project. The events focused on disseminating the projects objectives and results, and also raise awareness about the main topics addresses in the project, such as the Sustainable Development Goals, the European Green Deal, and Deliberative Democracy. The event was aimed at lifelong learners, VET educators, and VET trainees.

Citizen Deliberation | Climate Action | The EU's Green Deal

On the 4th of September 2023, Pro Work hosted a dynamic multiplier event that brought together a cohort of national participants. This gathering provided a platform for in-depth exploration and discussion of the project. Participants engaged in vibrant exchanges, sharing perspectives and experiences that enriched their understanding of effective integration of different topics related to the GreenVETers project in VET education.

Subsequently, on the 28th of November, another enriching multiplier event was convened, this time welcoming international participants from another project. This cross-border collaboration fostered a global perspective on the project, facilitating the exchange of best practices and innovative approaches. The diverse backgrounds and experiences of participants contributed to a rich tapestry of insights, further enhancing the value of the event.

An online event was held on the 17th of January 2024, with a group of “green experts” where the project was presented. In this online gathering the project was generally described as well as the modules online (UK part was shown).

The event aimed at enriching the dialogue among the three educational strands, namely schools, Higher Education Institutions (HEIs), and vocational education and training (VET), on the topic of climate advocacy and activism that is fostered by educational institutions.

The event included the participation of nine speakers who are actively involved in citizen science actions and projects for climate action and climate awareness.

Citizen Deliberation | Climate Action | The EU's Green Deal

The multiplier event organised by CIP and hosted by Avgorou VET School was a pivotal gathering aimed at disseminating the outcomes and methodologies of the GreenVETers project to VET students and professors, ensuring that the project's results are exploited long after its conclusion.

Participants, divided into teams, engaged in hands-on activities using the project's Online Training Course and other resources, aiming to tackle real-world problems like unsustainable agricultural and engineering practices, the linear economic model's limitations, and the need for enhanced deliberation and participation opportunities in environmental decision-making.

## *Our goodbye message...*

As we bid farewell to this chapter, we want to extend our heartfelt gratitude to every partner, participant, and supporter who has been part of this remarkable journey. Your dedication, expertise, and enthusiasm have been the driving force behind GreenVETers' success.

Though this project may be ending, the mission it embarked upon does not. We encourage you to carry forward the spirit of GreenVETers in your future endeavors.

Thank you for being an integral part of our project. Here's to a future where education continuously evolves to meet the challenges of sustainability and where every learner is empowered to make a difference.

***That is all from us for now...***  
***We trust the success of our mission***  
***to you!***
